

CESUR ALPHAN ELLİK

Jr. Cyber Security and Hardware Technician

WORK EXPERIENCE

2023 September - November

Internship in Information Technology Technical Service
İzmir Konak Belediyesi

As a passionate hardware technician in the field of technology, I assisted in the maintenance, repair, and installation of computers, phones, printers, and other electronic devices. On a daily basis, I quickly and effectively identified and resolved hardware issues. I ensured the seamless installation of new systems.

MY ACADEMIC BACKGROUND...

2021 - 2023

İzmir Ekonomi University
Computer Programming
Gno: 3.11

SKILLS

• C#

One of the projects I have developed is a stock tracking system with a Microsoft SQL Server connection. If you would like to review the details of the project, you can visit the GitHub link below:

<https://github.com/Melanocetuss/Stok-Takip-Sistemi>

• Java

My university information system project is an example that allowed me to understand and apply the basic concepts of object-oriented programming. In this project, I used concepts such as inheritance, polymorphism, override and overload. You can visit the GitHub link below to review the details of the project:

• Python

Tkinter is a project that I developed using CustomTkinter and Pandas libraries, has a visual interface and is connected to the SQLite database. This project was carried out with the aim of following the initiative I dreamed of in my mind. You can visit the GitHub link below to review the details of the project:
